

VISION

Sutton Grange Organic Farm is an expression of loving and giving between people and animals, acting as a launching pad for many possibilities.

It reflects our courage to pursue our dreams in a way that respects and contributes to the well being of the natural environment.

VALUES

Nature

Anytime . . .

- We live the big picture of the world we live in, love it and participate in it.
- We live the richness of the connection between life and death and the web of life that exists here.
- We accept our responsibility whilst understanding we are part of a whole.
- We value the opportunity to live in natural rhythms.

Connection

Anytime . . .

- We participate in the lives of people (friends, family, colleagues and those we associate with).
- We acknowledge that the wider world impacts on us and that we are connected with these wider issues.

Generosity

Anytime . . .

- We share the wellness of the farm.
- We create opportunities to share the farm.

Contentment

Anytime . . .

There is balance in work, play, rest and study.

There is balance in spending time with friends.

We appreciate the natural beauty of the farm.

We notice where we are and the environment around us.

We return to the farm and we feel it is our home.

Harmony

Anytime . . .

The goats are well.

The people are well.

The land and water are well.
